

# GS Data Tool Project Registration Form

To register for a GS Data Tool (GSDT) Project ID and receive user account credentials, please fill in the requested information below and email the form to [GSDataTool@epa.gov](mailto:GSDataTool@epa.gov). Following the receipt of account credentials, you will be able to log in to the GSDT at <https://epa.velo.pnnl.gov/share/page/>.

GSDT Project IDs are created and assigned on a per-project basis regardless of the number of Class VI wells that will be used for injection at the proposed project site.

Use the Project Registration Form below to register a proposed project and receive your account credentials. You do not need to complete the Project Registration Form if someone from your organization has already done so. Please use the User Registration Form below to register additional project team members in need of account credentials.

The information submitted on these forms is for GSDT account creation purposes and will not be used for the evaluation of a Class VI permit application. Account information can be modified after registration by sending a notification with the updated information to [GSDataTool@epa.gov](mailto:GSDataTool@epa.gov).

<b><u>GS Data Tool Project Registration</u></b>
<b>Permit Applicant:</b> <i>Name of entity (e.g. corporation) that is applying for the Class VI permit.</i>
<b>Permit Applicant:</b>
